Von Braun Center Arena Graduations and Construction

HUNTSVILLE, Ala. – The Von Braun Center is the primary location for high school and some college graduations throughout Madison County. In an effort to keep the public informed, VBC management is providing the following information regarding graduation attendance. Please consult individual schools/school systems for specifics related to their particular graduation.

Family and friends attending graduations held inside the Arena may either enter through East Hall 1 and proceed to the North landing, or may enter through either of the South landings of the Arena. The southeast landing of the Arena offers handicap access and is equipped with a lift for the customers with limited mobility. Additional directional signage will be posted to help patrons enter and exit the facility with ease. Guest services personnel will also be positioned to physically direct people throughout the building and around the exterior of the construction zones. A diagram has been attached to further illustrate the Arena entrance and exit locations.

Graduations not held in the Arena should not be directly impacted by any construction taking place at the Von Braun Center.
